

Brian R. Carlson
1430 Whitetail Circle
Niles, MI 49120

Due to the extreme reduction in sales last year caused by Covid my position as Winemaker for Tabor Hill Winery in Michigan recently ended. The CEO said that he needed to eliminate my salary from the monthly payroll. Consequently, I am seeking employment as a winemaker.

In my previous position as winemaker for Tabor Hill Winery, Round Barn Winery and Free Run Cellars we made approximately 50 different products ranging from dry red and white Vitis Vinifera, semi dry whites, sweet white and red blends, Methode Champenoise sparkling wine, fruit wines, cream-based products as well as carbonated sweet wine cocktails that were packaged in cans. Total production was close to 50,000 cases annually.

As you will see on my enclosed resume, the depth of my experience in wine making is extensive and spans 30 years in the industry. I am capable of, and committed to, crafting the best of wines.

I am a mature and proven professional who is comfortable with himself and his craft. During my winemaking career I have made many high scoring and award winning wines. I have trained and managed the cellar staff, performed the routine lab analysis and the daily record keeping on the computer database. I also have extensive experience running the bottling line. Additionally, I have become adept at repairing and maintaining the various equipment used throughout the winery and have decades of forklift experience.

Thank you for your consideration.

Sincerely,

Brian R. Carlson
