

MICHIGAN Wine Collaborative

Supporting and promoting the Michigan wine industry through education, events, and campaigns

Michigan Wine Collaborative Sponsorship Levels

The Michigan Wine Collaborative is a non-profit organization supporting the sustainability and profitability of the Michigan wine grape and wine industries.

Promotion and support of Michigan's wine industry used to be a line item in our state budget through the Michigan Grape and Wine Industry Council, who worked hard to increase the viability of the state's grape growing, winemaking, and associated industries through education, industry events, advertising, and consumer messaging and events. In anticipation of the state's dissolution of the Michigan Grape and Wine Industry Council in 2019, the Michigan Wine Collaborative, a dues-based non-profit organization, was formed to pick up the torch and continue much of the work of the MGWIC, albeit without funding from the state. We are made up of almost 200 Michigan wineries, grape growers, industry suppliers, enology and viticulture educators/students, sommeliers, and other wine-associated businesses throughout the state. We work to promote Michigan wine throughout our state and across the country. We bring speakers, conferences, research, and education/certification to our industry members to help grow their businesses. The MWC also manages Vintage Michigan, a consumer wine club offering discounts, events, and VIP promotions at participating partners (wineries, restaurants, and places of lodging) to raise awareness of the Michigan wine industry.

Every penny counts in our work as the voice of Michigan wine in the Great Lakes and across the nation. Thank you in advance for your partnership to help make that happen!
