## Introduction:

---

I am Professor and McCain Family Chair in Food Security in the Department of Food, Agricultural and Resource Economics at the University of Guelph. My research, teaching and outreach efforts focus on food security and natural resources in food production, rural development, and environmental quality.

My leadership efforts are developed around a belief that each day I demonstrate the maturity in decision making that advances the value of the University's commitment to teaching, research and outreach and recognizes the critical contribution of students, faculty, staff, alumni and the community we seek to improve.

### **Ongoing Research-Outreach Projects:**

---

#### **Collaborative Relationships Between First Nations and Municipalities in Ontario**

The central aim of this project is to identify the potential scope for water sharing in the Province, and factors influencing communities to choose to engage, or not engage, in these exchanges. Researchers will explore the potential for collaborative water arrangements between First Nations and municipalities in Ontario, and assess water sharing as one possible solution in the broader portfolio of solutions needed to address drinking water quality issues on reserves.

#### **Ontario Farmland Value and Rental Value Survey**

The aim of this survey is to generate and provide public information about farmland values and rental rates. This research is being funded by the Ontario Ministry of Agriculture, Food and Rural Affairs. Results from the 2016, 2017 and 2018 survey rounds are available now.

#### **FARETALK Podcast Series** <<https://www.uoguelph.ca/fare/institute/podcasts>>.

FARETALK was a podcast series founded in 2011 dedicated to provide research-based information about contemporary issues of importance to the economics of food, natural resources and the environment.
